ABOUT

Nitin Kumar Sharma is a globally recognized AI/ML Manager and Agentic AI Architect at Cognizant. A pioneer in 'Architected Cognition,' he designs systems where reasoning is a core structural feature - not an afterthought. He leads mission-critical AI/ML portfolios, specializing in secure, production-grade reasoning agents and autonomous public-service stacks.

CORE EXPERTISE

- Agentic RAG - Dynamic intent-based synthesis pipelines using LangGraph & CrewAI
- ML Security - Hardening LLM runtimes against prompt injection; autonomous security orchestration
- Multi-Agent Systems - AutoGen & LangGraph orchestration for complex enterprise workflows
- AI Strategy - Enterprise AI roadmaps aligned with Generative AI capabilities
- MLOps - CI/CD pipelines, automated retraining & monitoring (Kubeflow, MLflow)
- Public Services AI Stack - National-scale inclusive economic transformation

TECHNOLOGY STACK

GLOBAL SPEAKING & SEMINARS

- 250+ keynotes & seminars delivered across 50+ countries
- Trained 10,000+ professionals in AI/ML and Generative AI
- Featured speaker at JEC Kukas, Microsoft Ignite, AWS re:Invent & more
- Topics: Agentic AI, GenAI Strategy, MLOps Scaling, LLM Security
